BURGISSER DYLAN

GAME DEVELOPMENT JUNIOR

LOOKING FOR END-OF-STUDY INTERNSHIP AS GAMEPLAY PROGRAMMER - 2026

PROFILE

Hi, I have a passion for IT, Video Games and Dogs! I was always passionate about video games but only recently discovered game development and have since been engulfed in learning all I could! With a focus on Gameplay Programming I hope to be able to learn all I can about making games!

EDUCATION

- Howest University of Applied Sciences** 2022-2026
Digital Arts & Entertainment - Bachelor
 - Learnt various game development skills in C++, C#, 2D & 3D game engines, OOP, Game Design Patterns, Graphics, Engine Programming and more!
- Technological University of the Shannon** SEP 2025 - DEC 2025
Game Development - Erasmus Exchange Semester
 - As I love learning new things, I am grateful for this opportunity to study abroad and learn new subjects not available in my home institution.
- Université catholique de Louvain - UCL** 2018-2021
Civil Engineering
 - Acquired deep mathematical, physics and chemistry knowledge. As well as basic coding skill and various team projects.
- UNIVERSITÉ LIBRE DE BRUXELLES - ULB** 2017-2018
Computer Science
 - Acquired basic knowledge about computers, programming and cyber security.
- European School Brussels II** 2005-2017
 - General program with a focus on Mathematics and Physics.

WORK EXPERIENCE

- BeCode** 2021
Junior Web Development
 - Full-Stack development. Learning various skills such as HTML, CSS, Javascript, Python and others. It's where I discovered my passion for Game Development.
- The following are various jobs I worked as a student :**
 - Canine Trainer 2015-2025
 - Server - HULA 2024-2025
 - Night Manager - Night&Day 2018-2020
 - Grill Man' - Quick 2017-2018
 - I learned many soft skills as well as valuable experience. Notably that one should work for their passion and not just the money!

NOTABLE PROJECT - BRAWLSTORM

- Collaborated with four other students, taking on the role of team leader. From decisions, development, project documentation and organization, to helping my peers when needed. This is my biggest project to date.
